Subject: Wilcox (06GG) Update
Date: Wednesday, February 04, 2015 4:04:00 PM

I got a progress update from Louise DeLano on 2/4/2015.

The electronic certified corporate documents are currently being ordered after we received approval from Marvin.

Corporate trees are being created.

The search for additional sources of Site operational history continues. A summary of resources used is also being created.

The summaries of the Corporate Liability Analysis Reports are currently under review.

The project is currently on schedule for completion.

Ken stated that he contacted the PRP group last week about a completed corporate history on Marathon Oil, has not received any response yet. He mentioned that Courtney said that she may have some information. I've reached out to her to find out what she has.
